

# ADVANCED TRAINING

**Would you like to teach advanced skills to a trainee assistance dog?**

Lucy is an assistance dog for a person with physical disability. From 12 months of age she lived in the loving home of a trainer and participated in a one-year advanced program of intensive obedience, skilled tasks and public access training. Dogs learn over 50 cues for the specialised tasks they will be required to perform, and the public areas they may have to access. ASDOG adheres to international standards using positive, motivational training. Trainers receive full support, training fees and related expenses.

**ASDOG welcomes enquiries from potential dog trainers.**
